WAR RUMORS GALORE

Should Only Be Accepted With Great Reserve.

REPORTED ATTACK ON PORT ARTHUR

Japanese Newspaper Reports a Combined Land and Sea Attack on Port Arthur and Its Occupation by the Japanese—Collisions With the Russians of Frequent Occurrence.

London, March 22.—A number of rumors are printed in the newspapers here this morning, but they must be accepted with great reserve. The Telegraph's Tokyo correspondent cables a newspaper report of the Japanese occupation of Port Arthur after a combined land and sea attack Saturday and Sunday. It is asserted that a division of Japanese landed on the Liao Tung peninsula Saturday and engaged the Russians near Port Arthur, while the fleet bombarded from Saturday evening until Sunday morning. The same correspondent reports a sharp encounter at Chong Shong, on the Yalu river, about 30 miles northwest of Wiju, in which the Russians lost 600 in killed and wounded. The Chronicle's Shanghai correspondent hears from Newchwang that the Japanese crossed Tatung pass, 40 miles from Hail Cheng, and that collisions occurred with the Russians.

Russian Plan of Campaign.

St. Petersburg, March 22.—General Zhilinski's official confirmation of the reports that the Russian outposts abandoned Anju upon the approach of the Japanese in force causes no surprise here, as such action is in perfect accord with the Russian plan of campaign. The Russian skirmishing and advanced posts were thrown forward solely for the purpose of worrying the Japanese outposts, falling back as the main body of the enemy moves forward until the strong positions at the Yalu river are reached. The 50 miles of country between Anju and the Yalu are very difficult for the movement of a large force. There may be some lively skirmishing as the Japanese advance progresses, but the Russians are resolved to avoid a decisive engagement until certain of victory.

Heard Firing at Sea.

Yin Kow, March 22.—Firing was heard off the coast, apparently about six miles to the southward, 14 shots having been heard between 7 and 7:30 a. m. The morning was hazy and it was impossible to distinguish objects at sea. A credible report has reached here that two cruisers and five gunboats were off Kinohou inlet.

Rushing Troop Trains.

Irkutsk, Siberia, March 22.—Eighteen trains bearing troops of the Red Cross society have been held up to allow military trains to go through. It is estimated that 4,000 men are reaching Manchuria daily.

Age-Manchuria Ruling.

Washington, March 17.—With the approval of Secretary Hitchcock, Commissioner of Penitentiaries, promulgated the most important pension ruling that has been issued in a long time. It directs that, beginning April 15 next, if there is no contrary evidence and all other legal requirements have been met, claimants for pensions under the general act of June 27, 1890, who are over 62 years old, shall be considered as disabled one-half in ability to perform manual labor and shall be entitled to \$6 a month; over 65 years, to \$8; over 68 years, to \$10; and over 70, to \$12, the usual allowances at higher rates continuing for disabilities other than age.

Not Confirmed.

London, March 21.—Nothing has reached here to confirm the report that a battle has taken place on the Yalu in which the Russians captured 1,500 prisoners. A dispatch from St. Petersburg to a news agency says there has been no change in the situation, and that all is quiet on both land and sea between the Russian line from Ping Yang to the Yalu river and the Japanese line to Gensau. There have been slight skirmishes between scouts, but no battle has taken place, as the distance between the opposing armies is great. The bulk of the Russian forces, the dispatch adds, has not yet passed the Yalu river.

Indorses Hearst.

Boston, March 21.—In a signed statement ex-Congressman George Fred Williams announces his indorsement of W. R. Hearst's candidacy for the Democratic presidential nomination. Mr. Williams adds that he intends to wage a contest in this state in behalf of the candidate of his choice.

Will Not Stand For Trip.

Columbus, O., March 21.—The intimation has gone forth that Governor Herriek will not stand for the proposed trip to the St. Louis exposition by the Ohio general assembly at state expense, which means that an effort will be made to adjourn the legislature before May 1.

Temperance Leaders Elated.

Columbus, O., March 17.—The majority report of the house temperance committee was agreed to by the house, and the Brannock local option bill, carrying district local option, will go on the calendar in regular order. It will not reach a vote this week.

No Attorney Will Defend.

Union, Mo., March 17.—Because no attorney would volunteer to defend William Rudolph, the Union bank robber, charged with killing Detective Charles Schumaker, he was not brought into court to plead.

ACCEPT COMPROMISE.

Miners Approve Proposition Submitted by Operators.

Indianapolis, March 19.—Secretary-Treasurer W. B. Wilson of the United Mine Workers announced that the miners had finished the count of the referendum vote of the miners on the operators' compromise proposition, which provides for a reduction of 5.55 per cent from the present wage scale, which resulted in a majority of 31,141 in favor of accepting the two-year contract and the reduction. The total vote cast by the miners' local unions in Indiana, Ohio, western Pennsylvania, Michigan, Kentucky, West Virginia and Iowa was 165,887, of which 134,740 voted in favor of accepting the reduction, while 31,147 voted in favor of a strike.

Anti-Lynching Crusade.

Grenada, Miss., March 21.—An anti-lynching crusade has been inaugurated by the W. R. Barksdale camp, United Confederate Veterans, of this city. The following significant resolutions were unanimously adopted at a largely attended meeting of the camp: "First, we are unalterably opposed to the lynching of a human being save as a punishment for the one unmentionable crime; second, that as Confederate veterans and law-abiding citizens of Mississippi and of the United States we are violently, vehemently and unflinchingly opposed to the practice of hanging a human being for any crime whatever; third, that we are in unflinching tones to all Confederates, their wives and daughters, and to that great and glorious organization, the Daughters of the Confederacy, one and all, to arise in their might and by precept and example, voice and pen, moral force and influence, help put a stop to this diabolical, barbaric, unlawful, inhuman and ungodly crime of burning human beings; fourth, that we heartily approve and applaud the action of Governor Yarbrough in his recent successful efforts to save a criminal from a mob bent on burning."

Crew Drowned.

Portsmouth, March 19.—The British submarine boat No. A1 was run down and sunk by a Donald Currier liner and 11 persons were drowned, including Lieutenant Mansergh, the senior officer engaged in submarine work. The liner passed on and reported that she had struck a torpedo. At the time she was struck the vessel was off the lightship, engaged in the maneuvers, and was lying in seven fathoms of water waiting the approach of a battleship.

St. Louis, March 22.

St. Louis, March 22.—While drilling for water in the lower part of the city last week a vein of oil was struck and the flow has been so great that the city authorities ordered the pumping stopped to avoid any accidents. The flow has been escaping into the sewer, and the sewer commissioner discovered that there were large quantities of oil at the large outlet sewer. Serious results are feared if the oil should become ignited.

Tramps Killed in Wreck.

Trinidad, Colo., March 19.—Five unknown tramps who were stealing a ride were killed in a freight wreck on the Colorado and Southern railroad at Mayne, a small station 40 miles north of here. The engine and five cars of the train are piled in a ditch, and the bodies of the victims of the wreck have not been recovered. The accident was caused by a broken rail. The crew escaped.

Successful Nerve Grafting.

Philadelphia, March 22.—A new triumph of surgery has been recorded here, which rivals in wonder the operations of Dr. Lorenz in bloodless surgery. The remarkable operation, performed successfully by Dr. James K. Young, professor in the University of Pennsylvania, is the placing of grafting of nerves in a paralyzed child's leg, which cured a case of infantile palsy.

Avalanche Opens Coal Vein.

Seattle, Wash., March 19.—An avalanche in the Cascade mountains in the recent storm opened one of the largest veins of bituminous coal ever found in Washington. The big snowslide covered a mountain road for a quarter of a mile to great depth, and timber crushers estimate that it carried down 2,000,000 cubic feet of coal from the mountain side.

Can Not Secure Court.

Washington, March 22.—United States supreme court has decided that persons traveling on roads may not secure damages for loss of accident when they are injured, and the decision went against the contention of applying the principle to such passengers as are not familiar with the contract usually printed on the back of passes.

Hall Breaks Roof.

New Orleans, March 18.—The latest hailstorm on record, followed by terrific rain, occurred here. Under the weight and volume of hail and water the roof of the Southern Express company's storage building caved in, nearly wrecking the building. Other damage was done by the flooding of stores.

Misses Ruin Make.

St. Louis, March 19.—A lion is serving itself to death in a zoological exhibit here because its mate was taken away last Monday. Since then the lion has refused all food and all day and night has kept walking around the cage in a ceaseless vigil, occasionally giving vent to a low growl.

New York, March 19.—The battleship Illinois was docked at the Brooklyn navy yard for repairs, made necessary by her collision with the Missouri in southern waters on March 1.

BUNCHED PARAGRAPHS

RELATING TO AFFAIRS IN THIS AND ADJOINING STATES.

New County of Beckham Takes Part of Ohio—Woolen Mills Burned, Fined and Imprisoned For Neglect of Duty—Child Burned to Death.

Vanceburg, Ky., March 21.—It has just been discovered that, through some one's error, the lines of the recently created county of Beckham cross the Ohio river, and part of the Buckeye state is thus included in the county. Not only is this the case, but Lewis county, Kentucky, is without a legal seat of government, as Vanceburg, the county seat, has been included in the new county. An almost hopeless task seems to have resulted, which only the court of appeals can unravel.

Memphis, Tenn., March 19.—Drafts, checks and currency to the amount of about \$35,000, sent from Memphis to St. Louis, have mysteriously disappeared, and the robbery is being investigated by the postal authorities. Washington, March 19.—By the action of the senate in executive session General Leonard Wood became a major general, taking the rank from Aug. 8, 1903, the day President Roosevelt made the promotion. The contest against his confirmation has been a notable one, beginning Nov. 19, 1903, soon after congress convened in special session, and continuing through the session until Friday, when, by a vote of 45 to 16, the nomination was confirmed. The late Senator Hanna was recognized as the leader of the forces opposed to General Wood, and had it not been for his death before the disposition of the case it is conceded that the vote would have been much closer.
